Swimming Pool Heat Pump

Leisure Temp High Efficiency Heat Pumps are designed specifically for Florida pools and produced in the world's largest, technologically-advanced swimming pool heat pump facility.

We have a size and model for nearly every pool environment – including yours!

Ultra High Efficiency – Heat your pool for as little as \$1 per day and swim comfortably every month of the year!

Extremely Durable – Built with long-lasting components that can withstand harsh Florida conditions including extreme heat, rain, and salt water pools!

Extra Quiet Design – Leisure Temp Heat Pumps are designed to “quietly go about their business”. Our quality compressors and air flow systems are specially designed so that you will barely hear them operate – and neither will your neighbors!
